

Company Strategy

We are committed to the basic values that drive from our company philosophy: success, innovation, and high level of integrity.

These values are defined in the guidelines applied in our daily activities due to the actions of every individual contribute to the success and ongoing development of the company. For Power Energy company limited, every agreement represents a partnership in which both the company and the client will benefit.

Power Energy company monitors the industry developments and updates its internal database for new opportunities. This ongoing effort is the main reason we can compete effectively with other companies.

Overview

Sale Or Lease Purchase

If you prefer to own your equipment the majority of our product are available to purchase. New Build and ex-rental fleet are available via cash sales and lease purchase. Purchases can supported by contract maintenance and provision of operating people.

Engineering Services

Providing a wide range of supporting the engineering services of electrical and mechanical design and commissioning.

Manufacturing

We provide a design, build and installation for many different projects for onshore and offshore

General Supplies

Our reputation is built on delivery of high quality supplying the oilfield requirement to to ensure our customers get the right level of service.

POWER ENERGY Overview

Services (Sale Or Lease)

Power Generators
Air Compressors
Transfer Pumps

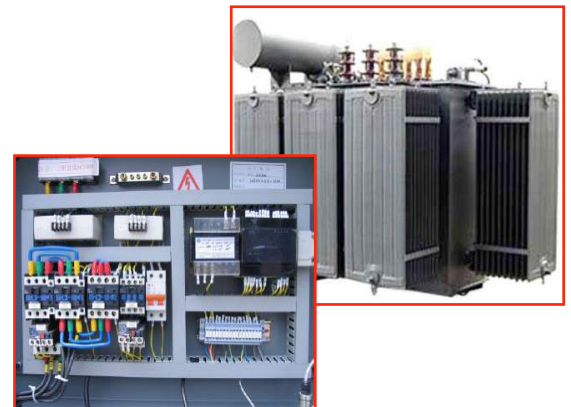

Manufacturing

Onshore lab cabin and workshop
Offshore lab cabin and workshop
Caravans and portable workshop containers
Onshore/offshore Pipe stand, baskets
and storage containers
Truck Mounted Unit Fitting
Truck Mounted Unit Supply
Portable and fixed Lighting stands, poles and towers

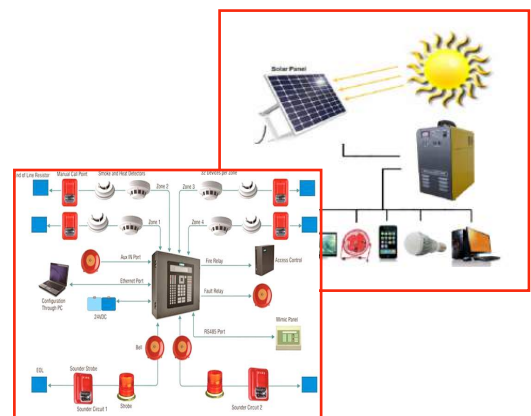

General Supplies

Power Transformers
Electrical equipment & Cables
Hoses, fitting, valves & piping
Industrial safety and hand tools
Fire extinguisher & fire protection equipment

Electrical and Mechanical Design and Commissioning

Oilfield Ignition and burner Systems
Fire and Alarm Systems
Solar Energy System

Services

Diesel Power Generators

(Provides all sizes of soundproof and open genets)

Onshore sound/
water proof diesel
power generators

Offshore sound/
water proof diesel
power generators
(Rig Safe/Zone-2)

Services

Air Compressors

(Provides all sizes of reciprocating and screw air compressors)

EEx/Non-EEx Single Electrical Air Compressors

EEx/Non-EEx Dual Electrical Air Compressors

Diesel Air Compressors

Air Starter Diesel Air Compressors
(Offshore Rig Safe)

Services

Fluids Transfer Pumps

(Provides a horizontal pumping system a reliable, flexible and cost-effective solution to oil transfer and centrifugal pumps for a wide range of low and high pressure applications for shipping purpose)

EEx/Non-EEx

Electrical pumps

Diesel screw, centrifugal, Multistage, and Triplex pumps

Manufacturing

Onshore/offshore Pipe stand, baskets and storage containers

Manufacturing

Onshore lab cabin and workshop

Manufacturing

Offshore lab cabin and workshop

Manufacturing

Caravans and portable workshop containers

Manufacturing

Truck Mounted Unit Fitting

Manufacturing

Truck Mounted Unit Supply

Manufacturing

Portable and fixed Lighting stands, poles and towers

Zohr EPF Project

Installation of the temporary lighting
Provide and rent the portable lighting
poles for Zohr EPF Project

General Supplies

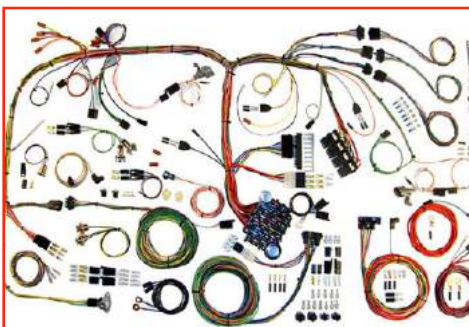

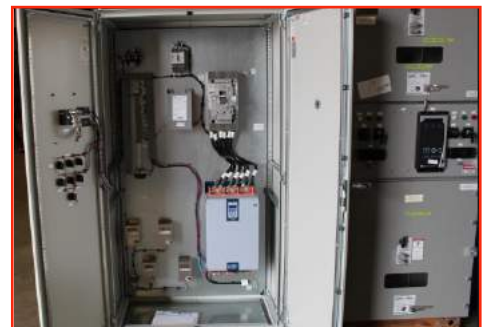

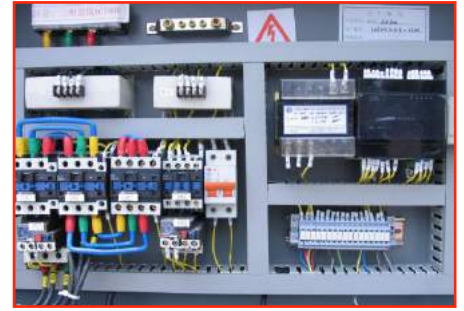

Power Transformers

Supply all the types of different ranges of power transformers

General Supplies

Electrical cables and components

General Supplies

Hoses and fitting

High, Medium and low pressure hoses.

(Universal Brands)

All types of connections and fitting.

General Supplies

Industrial safety and hand tools

General Supplies

Fire extinguisher and fire protection equipment

Electrical and Mechanical Design and Commissioning

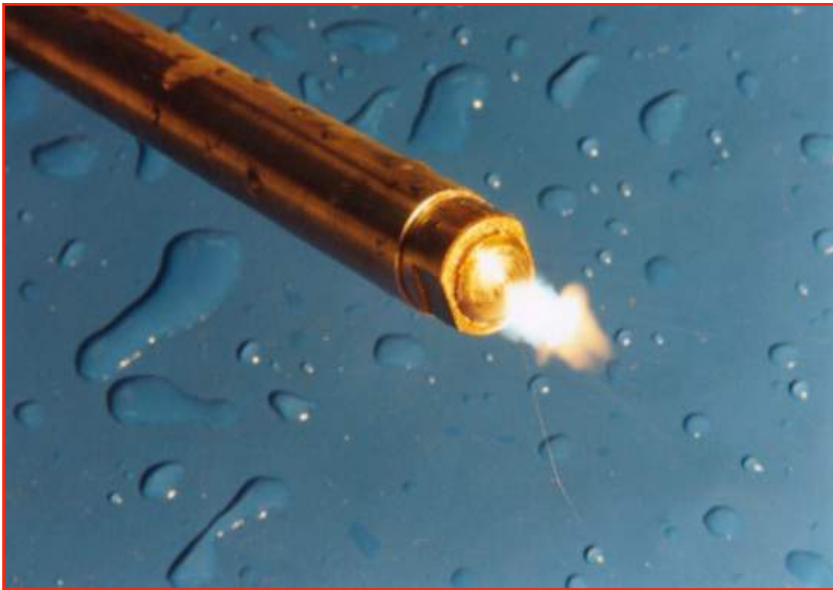

Oilfield ignition and burners Systems

Provide a full engineering support and services for complete, design, build and installation of onshore/offshore ignition systems.

The Sole supplier for the special Ignition kit EEx panel

The Sole supplier for heat resistance cable

Local Utility Commissioning the burner of the Heater/Boiler

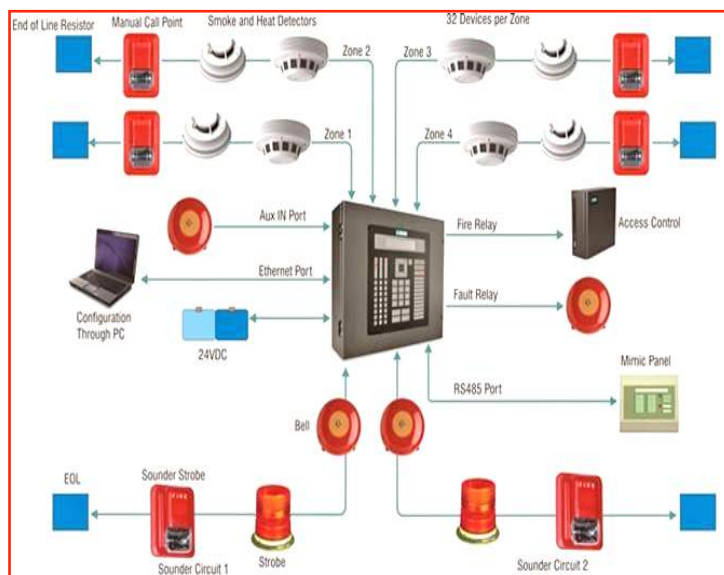

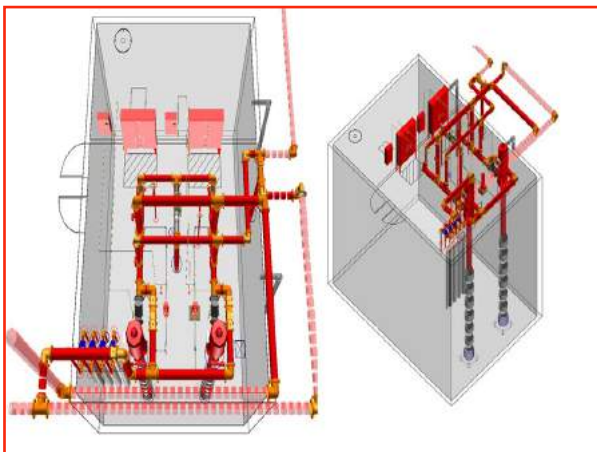

Electrical and Mechanical Design and Commissioning

Fire and Alarm Systems

Provide and apply fundamental engineering principals and specific 'real life' construction experience to ensure the fire system are designed in accordance with the client intentions.

The staff have specific experience designing, completing, building and installation of Alarm system.

Electrical and Mechanical Design and Commissioning

Solar Energy System

Provide the staff which have been strategically and actively involved in solar PV generation projects.

We have specific knowledge and expertise that result in high quality, cost effective solar PV facility designs.
